Carry Your Wallet Without Carrying Your Wallet

Your phone already goes everywhere with you, so it makes sense for your wallet to do the same. With Mobile Wallet, you can add your Sevenfold VISA® debit or credit card to your phone and pay securely anywhere tap-to-pay is accepted. There's no need to pull out your physical card—just tap and go, whether you're checking out at the store, grabbing coffee, or running everyday errands.

Mobile Wallet also makes online shopping easier. When shopping at participating merchants, you can use your mobile wallet instead of typing in your card information, helping save time and reduce the chance of errors. Your card details stay protected, and your information is never shared with the merchant, giving you added peace of mind. Once your card is added, it's always there when you need it—quick, convenient, and ready for life on the go. It's one small change that can make everyday banking feel a little easier.

This Year's Resolution: You

Every new year comes with resolutions, and this year, ours is simple: getting to know more people in our community. We've set a goal to welcome new members—not just to grow, but to build more relationships and continue doing what we do best: serving people, not just accounts. Because when someone chooses Sevenfold, it's more than a switch—it's the start of a partnership rooted in trust, understanding, and support.

As the year unfolds, we're excited about the conversations, milestones, and everyday moments we'll share with both new and longtime members. Whether you've been with us for years or you're just getting started, we're here to make banking feel personal, approachable, and centered around you. Here's to a new year—and to growing together.
